SmartyCam GP HD-AiM device connection

Question
Connection between SmartyCam and AiM dash/logger is instable. SmartyCam shows "No connection" message. Can I fix it?

Note
This issue has been solved starting from SmartyCam GP HD serial number 4100870 (December 2014).

Answer
Use filtered CAN cable part number: **X70FSC130** available since December 2nd 2014 for SmartyCam GP HD from SN4100870
