Introduction

This datasheet explains how to use AiM 0-160 bar pressure sensor. Being able to read up to 160 Bar it fits particularly the reading of brake pressure. The sensor is available with different threads, whose **part numbers** are:

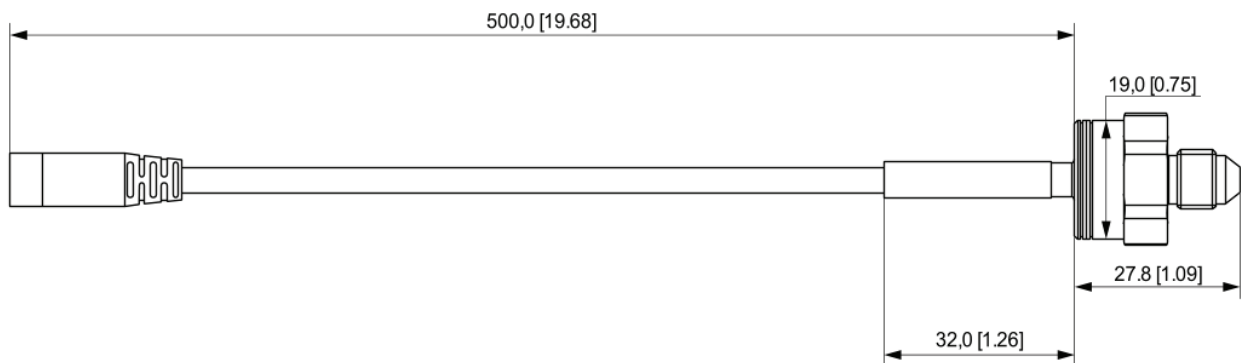

- Pressure sensor 0-160 bar M10 thread **X05PSA00160B10K**
- Pressure sensor 0-160 bar 3/8 24 thread **X05PSA00160B38K**

2 Dimensions, wires function, technical characteristics

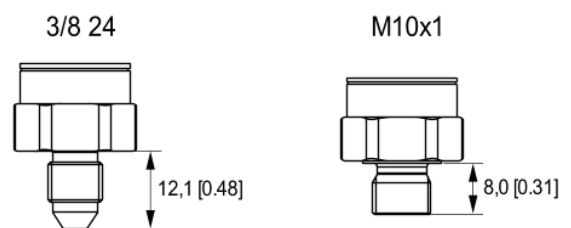

The drawing below shows M10 thread sensor dimensions in millimetres [inches].

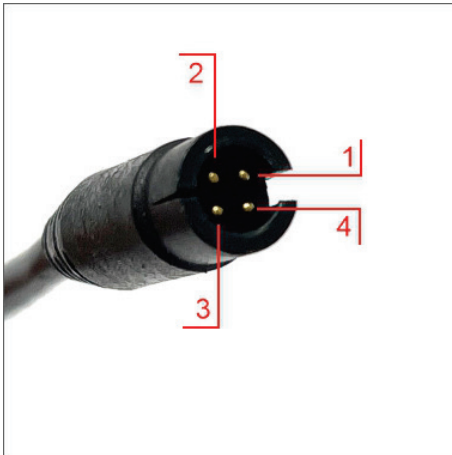

The drawing below shows 3/8 24 thread sensor dimensions in millimetres [inches].

The drawing here on the right shows both threads sensors detail dimensions in mm [inches].

The sensor end with a 4 pins Binder 719 male connector. Here below the connector view – sensor side on the left and device side on the right – are shown; while in the following table is connector pinout.

Pin	Function	Wire colour
