

Demo Mode

Demo Mode management

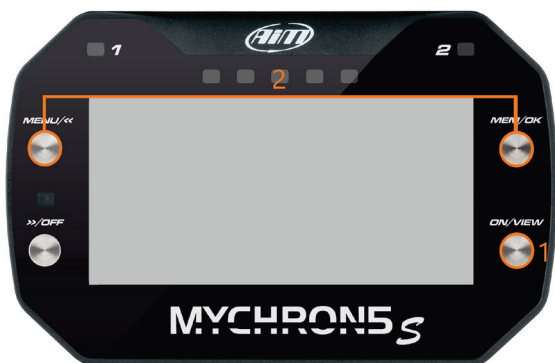

Question:

How can I activate my MyChron 5S Demo Mode?

Answer:

MyChron5S Demo Mode can be enabled and disabled from the device menu directly, following the steps below:

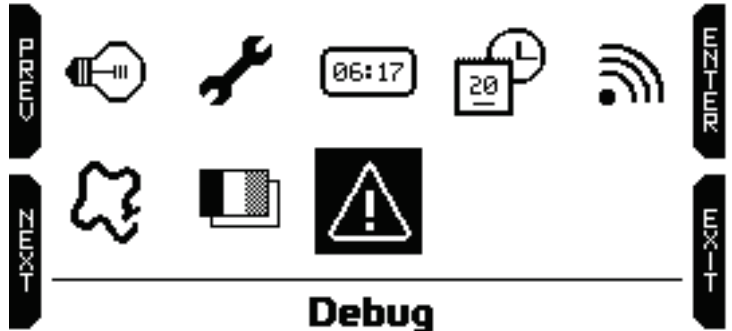

- Turn on the device with the ON/VIEW button and immediately press the "MENU/←" and "MEM/OK" keys. When the led bar start flashing and the AiM logo appears, release the buttons: the backlight and the led bar will light up, changing color.

Demo Mode

- Enter the device menu: the "Debug" icon is available (second row, danger signal). Press "Enter" to access the Debug menu.

- Setting ON allows recording via GPS speed
